1. In the lab you completed, you used `@csrf_exempt` as a decorator for the view `books()`. Which of the following is the correct statement to import the `csrf_exempt` decorator?
   — **1 / 1 point**

   ⦿ `from django.views.decorators.csrf import csrf_exempt`

   ◯ `from django.decorators.csrf import csrf_exempt`

   ◯ `from django.views import csrf_exempt`

   ◯ `from django.views.decorators import csrf_exempt`

   ✓ **Correct**
   That's correct! The location of the `csrf_exempt` is inside the `csrf subpackage` placed inside the `django.views.decorators` package. `csrf_exempt` is used to bypass CSRF validation while generating Django templates.

2. Which of the following options below were updated as strings inside the configuration option **INSTALLED_APPS** in the **settings.py** file?
   — **1 / 1 point**

   ⦿ **BookListAPI**

   ◯ **BookList**

   ◯ **rest_framework**

   ◯ **Book**

   ✓ **Correct**
   That's correct! The app **BookListAPI** needs to be registered to signal the use of the app **BookListAPI** for use inside the Django project.

3. Which of the following attributes were added inside the **models.py** file while creating the **Book** model? Choose all that apply.
   — **1 / 1 point**

   ☑ **title**

   ✓ **Correct**
   That's correct! The **title** attribute was added to the Book model to specify the title of the book.

   ☑ **author**

   ✓ **Correct**
   That's correct! The **author** attribute was added to the Book model to specify the name of the book's author.

   ☑ **price**

   ✓ **Correct**
   That's correct! The price attribute was added to the Book model to specify the price of the book.
